

The Panini Vision neXt™

For the most demanding and time sensitive check-capture environments, the Panini Vision neXt builds on more than six decades of Panini experience as a global leader in distributed check capture, delivering breakthrough innovation that drives tangible business value. By addressing the most common variables in check capture — environment, operator, and document quality — the Panini Vision neXt provides unparalleled levels of productivity.

As a payment technology innovator, we are not bound by conventional thinking, and the Panini Vision neXt is a testament to our ongoing effort to deliver breakthrough technology that exceeds the high expectations of our customers and partners.

Michael Pratt
CEO
PANINI

Trust. Value. Innovation.

The Vision neXt is built on a foundation of distributed capture expertise embedded within the genetic code of Panini.

The Panini Vision neXt...

Leverages the world's largest installed base and most trusted brand in distributed capture — the Panini Vision X — meeting and exceeding the quality and innovation benchmarks customers have come to expect from Panini.

Provides rich functionality, optimized ergonomics, price/performance leadership, the industry's best total cost of ownership, and demonstrable savings, backed by Panini's world-class service and support capabilities.

Features breakthrough innovation and versatile capabilities.

- Automatic document alignment to ensure transaction accuracy and integrity.
- Multi-format document capture to fully extend investment to document and transaction automation.
- Economical multi-function printer to enable a wide range of printing capabilities in one compact and cost effective device.
- Enhanced ergonomic design and automatic calibration capabilities to maximize ease-of-use and end user productivity.

Practical and Breakthrough Innovation

Panini Vision neXt establishes new performance benchmarks for branch and commercial capture of checks and related documents, helping users achieve unparalleled levels of customer satisfaction, accuracy, functionality, productivity and ROI.

Contact us today at 937.291.2195 or sales@panini.com to learn how the Panini Vision neXt can help reduce transaction processing time and errors, and increase operational savings.

- Patent-pending **Advanced Auto-alignment** virtually eliminating the need to hand jog or machine jog items, creating dramatic savings related to rework and errors.
- Maximum **160 documents per minute (DPM) throughput** to satisfy the most demanding and time sensitive environments.
- **Full color, dual-sided ID card scanning** for new account creation or customer identification applications.
- Completely **Integrated Exception Pocket** to effectively and efficiently manage exceptions such as foreign items or transaction rejects.
- **State-of-the-art Advanced Graphics Printer (AGP)** capable of printing customer receipts, endorsements, validations and more. Prints up to 14 lines of text and graphic images including logos and check images with a built-in capping and cleaning station to reduce maintenance while prolonging cartridge life.
- Support for **digitizing a wide range** of deposit and payment related document types including checks, stubs, and ID cards. Transaction capture options can be further extended to magnetic cards, EMV cards, and the connection of USB peripherals, maximizing investment protection.
- Ergonomic design with **Swing-open Covers** and ink-jet lid allowing complete visibility to device interior for cleaning, jam removal, and ink-cartridge replacement.
- **Enhanced Ultrasonic Double Feed Detection (DFD)** – the most effective automated detection system for documents with inconsistent backgrounds, thicknesses, and paper quality.
- **Double Magnet MICR Plus® Reading** using advanced algorithms based on patented blend of recognition technologies developed exclusively by Panini to ensure the highest level of deposit integrity.
