Designed specifically for the needs of small business

- The Panini I:Deal is a breakthrough product that provides a compelling check capture solution designed specifically for the needs of small business users of remote deposit capture (RDC), featuring affordable cost of ownership combined with best total quality, and consistent with the industry-leading performance and reliability customers expect from Panini.

- The Panini I:Deal utilizes patented technologies to deliver capabilities critical for RDC success including high quality dual-sided image capture, document franking, and advanced reading technologies in the areas of MICR and OCR. A pocketing capability minimizes paper handling, providing document storage while ensuring transaction sequence integrity.

- Through self-adjusting capabilities, the Panini I:Deal provides an optimal user experience in the wide variety of environmental conditions encountered in small business RDC implementations.

Based on extensive market research

- The conception and design of the Panini I:Deal is based on extensive market research to identify the specific and unique requirements of small business RDC users. Small business users, financial institutions, and Panini partners directly contributed to the design and development of this breakthrough solution.

Exemplifies Panini's design excellence

- Consistent with Panini tradition, the Panini I:Deal is unique in terms of visual appeal, fitting naturally and comfortably into any office or SOHO environment.

- With careful attention to an intuitive and ergonomic design, the I:Deal solution readily anticipates and accommodates users lacking familiarity with check processing.

Leverages Panini's market-leading position

With the support of an unparalleled customer base throughout the world, and the broadest reach of technology partners, Panini is well established as the market leader in distributed capture. The Panini I:Deal relies on and leverages this position while integrating the technical innovation and open architecture of the market-leading Vision X™ product suite.

Technical Specifications

Unit Size	Compact footprint.
	Height: 3.2''
	Width: 6.6''
	Length: 7.9''
Document Size	Height: Min. 2.12''– Max. 4.17''
	Length: Min. 3.93''– Max. 9.25''
	Weight: Min. 18.7#– Max. 32#
Feeder	Wide feeding area to accommodate documents of varying size.
	Auto-aligning single document feeder.
	Ergonomic horizontal face-up orientation with automatic document loading.
Exit Pocket	Option to exit document to feeding area or to exit pocket.
	Exit pocket capable of storing up to 10 items with document sequence maintained in original order.
Interface	USB 2.0 interface with WHQL certification for device recognition and simplified installation.
MICR Reader	Unique MICR reading technology to ensure accurate and reliable read of encoded information: E13B, CMC7.
	Exclusive Panini MICR Plus® read technology with OCR assist to optimize MICR read performance.
Image Capture	Dual-sided image capture using Contact Image Sensor (CIS) technology.

Franking	Intelligent front franking functionality to visually indicate the check has been deposited (franking stamp sold separately).
Virtual Endorsement	Virtual endorsement offered through Panini Vision API, automating and improving the legibility of item endorsements.
Certifications	Industry certifications including WHQL driver certification, UL approved, and FCC class B.
SW Tools / OS support	Windows XP S.P.1 and Windows Vista.
	Utilizes the Panini Vision API common to entire family of Panini products.
Power Consumption	External energy efficient power supply.
Software Options	OCR-A, OCR-B, Barcode recognition engines, IQA library.
Diagnostic Features	Power-on self testing with on-board diagnostics.
	Automatic calibrating document sensors, MICR read head, and image camera to adjust for usage and varying environmental conditions.
Maintenance	Minimum maintenance requirements, no loose components, full access to track for removal of foreign items.
Warranty	1 year warranty. Panini I:Deal™ Protection Plan available (please contact your Sales representative).

The management system governing the manufacture of this product is ISO 14001:2004 certified.

MADE WITH RECYCLED MATERIALS. Printed on stock that contains 25% post-consumer recycled content.
